MENTORSHIP OPPORTUNITIES

Change a *Life.*
Change a *School.*
Change a *Community.*

Join United Way of Salt Lake in celebrating 25 years of volunteer engagement by making a commitment to change a life, change a school, and change our community! **Volunteers are an essential component to creating lasting social change** on the issues of poverty, poor health, and lagging educational achievement. The programs below will allow you the opportunity to participate in a volunteer program that has immediate outcomes as well as contributes to the long-term success of children and families.

CHANGE A LIFE:

Mentor 2.0 program focuses on college readiness for high school students, particularly those who will be first-generation college students. Mentors and mentees communicate weekly via email within a protected online platform, and meet at the high school once a month for a structured activity.

Read. Graduate. Succeed. Tutor a student in reading, encourage school attendance, or mentor junior and high school students to support high school completion and college and career goals. Volunteer once a week for one hour during the school day to make a difference in the life of a high-potential student.

CHANGE A SCHOOL:

In-class support: Individuals or pairs of volunteers can support teachers in high-needs schools by participating in simple reading or math activities provided for about one hour, once a week, during the school day.

Before and afterschool programs: Individuals or groups can support students in academic activities or through enrichment programs by sharing your skills and talents in a one-time class or ongoing course before or afterschool.

CHANGE A COMMUNITY:

Adult education: Support adults in gaining English, literacy, and job skills or help prepare adults to take the US Citizenship test.

Support refugee families: Help a refugee family learn about life in Utah by spending 2-3 hours a week for 4-6 months with tasks like explaining American grocery stores, attending Parent-Teacher conferences, practicing English skills, and tutoring school-age children.

THANK YOU
