

United Way of Salt Lake's
PROMISE
 CHANGING THE ODDS

*so that all children and
 their families, regardless
 of their circumstances,
 have the same chance to
 succeed in school and in life.*

ANNUAL REPORT | 2013-
to the community | 2014

Dear Friends,

Thanks to the hard work, contributions, and partnership of thousands of individuals and organizations, 2013-14 was a historic year of impact for United Way of Salt Lake. Together, we grew our donor engagement, expanded our Collective Impact partnerships, and created new and innovative solutions to address the most serious social challenges in our neighborhoods and communities.

Our corporate partners and donors have been engaged in our work in more meaningful ways than ever before. By developing ongoing volunteer programs with our Schools and Centers, hosting donation drives, responding to advocacy action alerts, and participating in the planning and evaluation of our work, companies are creating year-round opportunities for their employees to better understand community issues and how they can be part of the solution.

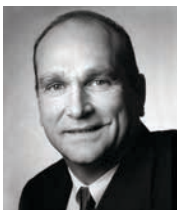

With the addition of two new schools, the Promise Kearns pipeline is serving many more students and families. United Way of Salt Lake recently partnered with South Kearns Elementary and Kearns High School. They join Oquirrh Hills Elementary and Kearns Junior High to support hundreds more students, starting as early as preschool, and all the way through high school graduation, with aligned strategies at every step along the way.

In partnership with Goldman Sachs, JB Pritzker, Salt Lake County, Granite School District and Voices for Utah Children, we launched the first-ever results-based financing vehicle to expand access to high-quality preschool for an additional 600 at-risk children. We continued this work by supporting and influencing the passage of HB96, the Utah School Readiness Initiative. More children throughout the state will now enter kindergarten ready to learn and stay on track through their entire school experience. Private investors now have the option to partner with the state to invest in preschool programs that demonstrate lasting results and save taxpayer dollars.

Generous donors, dedicated collaborative partnerships, meaningful volunteer engagement, and targeted advocacy add up to real and measurable positive results for our community. We know that we are not alone in this work and we embrace all of our strategic partners who believe, as we do, that together, we can do more than help one child beat the odds, we can change the odds for entire communities.

We appreciate your trust, confidence, and above all, your partnership with United Way of Salt Lake.

Sincerely,

A handwritten signature in dark ink, appearing to read 'A. Alexander'.

Allen B. Alexander
Chair, Board of Directors
Chairman and CEO, Savage

¹ UWSL Partner Quarterly Report, 2013-2014, ² USOE PSD Gateway, Utah School Report, 2013, ³ UWSL Annual Survey, 2013, ⁴ UWSL Partner End of Year Report, 2013 ⁵ Granite School District, Data Retrieved September, 2013

United Way of Salt Lake **expanded its cradle to career pipeline in Kearns** with the addition of two community schools, South Kearns Elementary and Kearns High School. The Promise Kearns partnership now works to connect families with vital educational programs, social services, health resources, and much more at four Community Schools.

(Source: USOE PSD Gateway, Utah School Report, 2013)

Promise Partners celebrated **Guadalupe School's 56 percent gain in achievement and growth** this year, a huge accomplishment for students, teachers, administration, and partners considering they were ranked in the bottom 28 percent during 2011-2012. (Source: USOE PSD Gateway, Utah School Report, 2013)

United Way of Salt Lake and many partners launched the **first-ever results-based financing vehicle to expand access to preschool for at-risk children**. Six hundred additional at-risk three and four year-olds gained access to high-quality preschool in United Way of Salt Lake's Promise Partnership communities. This high-quality program has successfully closed the achievement gap in Language Arts and math. This program reduced the achievement **gap in language arts from 22 percent to 5 percent** and in Math it was effectively eliminated by 3rd grade.

Collective Impact

Because of the intentional hard work of students, teachers, and all the Promise South Salt Lake partners, **Granite Park Junior High Community School saw a 28 percent improvement in achievement and growth this year.**

(Source: USOE PSD Gateway, Utah School Report, 2013)

United Way of Salt Lake formed the **Promise Partnership Regional Council**, a cross-sector group of community and state leaders that works to establish goals and track progress throughout all United Way of Salt Lake's Promise Partnership Communities. The Council is co-chaired by Mark Bouchard, founding Chair of Prosperity 2020 and Senior Managing Director, CBRE, and Dr. Martin Bates, Superintendent of Granite School District.

United Way of Salt Lake championed the expansion of high-quality preschool for at-risk students and, together with many partners, influenced the **passage of HB96**, the Utah School Readiness Initiative (Hughes, Urquhart). **Utah is now the first state to embrace pay for success financing for early education programs.**

The Utah State Legislature expanded the public-private partnership between **United Way 2-1-1 and the state of Utah with a \$500,000 appropriation**, ensuring this vital state resource is available to more Utahns in crisis, as well as matching people to volunteer opportunities.

United Way of Salt Lake **Tocqueville Society's** 79 members collectively **contributed over \$1 million** in membership gifts to United Way of Salt Lake. Tocqueville welcomed five new members and engaged members in volunteerism, networking, and leadership opportunities.

This year, United Way of Salt Lake launched a new Donor Network, **Leadership Circle**. Members are 41 years or older and donate at least \$1,500 annually to UWSL, collectively **investing nearly \$330,000 in our community**. **193 members strong, Leadership Circle** is focused on ensuring kids are on track in reading, math, and science. Nearly 250 attendees helped celebrate the launch of this diverse group on March 6.

United Way of Salt Lake **Women's Leadership Council** of nearly 200 members spent more than 130 hours volunteering as mentors and tutors, giving classroom presentations, and facilitating college and career tours and workshops. This year, **WLC members invested more than \$460,000 to support Women for Educational Achievement**, an initiative empowering girls and teens to complete high school and go on to post-secondary education.

Engagement

United Way of Salt Lake's **366 Young Leaders** spent more than **230 hours** volunteering one-on-one with students at Guadalupe School to improve reading comprehension, math, and science skills. *Young Leaders* also actively advocated with United Way of Salt Lake to pass early education legislation, spending more than **125 hours** on the Hill reaching out to lawmakers.

More than **4,500 volunteers from 100 companies** participated in **115 one-day service projects** during United Way **Day of Caring** September 13. Volunteer projects ranged from tutoring and reading in classrooms, providing art and activities for kids, conducting career fairs, and completing maintenance projects like painting, weeding, and other community beautification. Collectively, volunteers **saved the community over \$770,000** in labor costs alone.

As a partner in the **Read. Graduate. Succeed.** volunteer initiative, United Way of Salt Lake recruited nearly **700 volunteers** who were matched with academically-struggling students at UWSL's Community Schools. Through one-on-one tutoring, volunteers helped **85 percent** of the participating students improve by three or more reading levels.

United Way of Salt Lake launched a grassroots campaign encouraging the passage of **HB96**, The Utah School Readiness Initiative. Over **4,300 individuals signed the pledge to #Stand4PreK**, more than **22,000 emails** and letters were sent by UWSL advocates, and **130 volunteers** worked to educate the community about the importance of high-quality preschool.

The Changing the Odds Founding Council, a cross-sector collaboration between leading philanthropists, civic leaders, and business leaders, was created to help inform and engage our largest investors in our work on the ground. The Council held its first annual meeting in November and reviewed UWSL's results reportcard.
