

## Promise Partners with Access to Student Level Data

### **FERPA Waivers**

A federal law called the Family Educational Rights and Privacy Act (FERPA) protects students' educational information. If a parent or guardian gives written permission, student information can be shared with partner organizations. By choosing to sign a FERPA waiver, a parent or guardian allows information about their child's academic records to be shared with the Promise Partners that work with students. The students of parents or guardians who choose not to sign a FERPA Waiver can still receive services.

### **Individual-level Student Information**

Individual-level information is ONLY shared with a small subset of Promise Partners who work directly with students ("trained service providers") if (1) a parent or guardian has given written consent to share information; (2) the trained service provider has signed data confidentiality agreements and received specific training; (3) the trained service provider works in the student's community; (4) and the trained service provider "needs to know" the information, because knowing it will help them support the student's academic success.

### **Promise Partnership Community Schools and Non-Community Schools**

Community Schools are schools where partnerships have been established to provide comprehensive support for students and families. Students at Promise Partnership Community Schools receive – in addition to education – opportunities for health care, afterschool programming, tutoring, mentoring, English skills, citizenship classes, and other services. The first section of this document (titled "Community Schools") lists each partner that UWSL shares student-level data with by Community School.

Promise Partners also serve students who attend schools in our region that are not designated as Community Schools. The second section of this document (titled "Non-Community Schools") lists each partner that UWSL shares student-level data with by school.

More information is available at [uw.org/data](http://uw.org/data). Please call United Way of Salt Lake at 801.736.7702 or email us at [helpdesk@uw.org](mailto:helpdesk@uw.org) if you have any questions about the information in this document.
