Mental illness can affect persons of any age, gender, race, religion or income. NAMI Utah offers Mentoring, a free service providing those living with mental illness and their families a peer who can listen, empathize, and connect them to valuable education/support programs and other resources.

Our mentors strive to keep current on the services provided by our community partners, so we are better prepared to meet the needs of those who call us for help. We value our partnerships with these and many other organizations statewide.

Our Peer Mentors are Standing By.
